## Education

**2017 High school degree VWO**

O.R.S. Lek en Linge

**2021 BSc. Psychology &  
Technology**

Eindhoven University of  
Technology

**2022 MSc. Human Computer  
Interaction and Design, first  
year**

Universidad Politecnica de  
Madrid

**Present MSc. Human Computer  
Interaction and Design,  
second year**

University of Trento

## Experience

**Nov. 2021 – Aug. 2022 User Interface Analyst of Simac Presto**

Simac – <https://www.simac.com/nl>

For Simac IDS I have conducted a user interface analysis for the software PrestoStudent and PrestoAcademic. Here, teachers can easily register attendance and students can register themselves. In order to make the software user-friendly and to gain a better image for the customers the analysis was conducted and applied in their software, using the Web Accessibility Guidelines.

**Jan. 2021 – Oct. 2021 Communication TU/e Central**

**Introduction Committee**

TU/e Introduction Weeks

I have gained experience in events, where I was working with a team of six to organize the introduction week for approximately 2500 students. Within this team I had the function of communication, which includes communication to the participants and numerous study- and student associations.

**Sep. 2019 – Jul. 2020 Tutor Physics and Data Analytics**

Eindhoven University of Technology

Tutoring first-year students in the courses Applied Physics and Data Analytics for Engineers. I gained experience in providing help to other students to understand the material of technical courses.

**Sep. 2019 – Jul. 2021 Studentmentor**

TU Eindhoven – Faculty Industrial Engineering & Innovation  
Sciences

Student mentor for first-year students. Guiding and helping the students through the first year of their studies. I helped them reflect on themselves, guided them in making study decisions, and in learning how to study.

## Extra-Curricular Activities

### Feb. 2019 – June 2022 **Organizational Framework**

Student Rowing Association Eindhoven Thêta –

<https://esrtheta.nl>

This committee focuses on creating a plan and vision for at least four years in the future. An association has a new board each year. The committee focused on a constant vision. My responsibility was the coaching and competitive rowing.

### Aug. 2018 – Sept. 2020 **Confidant and Secretary Introductory days**

Student Rowing Association Eindhoven Thêta

–<https://esrtheta.nl>

Organizing an introductory weekend camp for freshmen at the rowing association Thêta. First year fulfilling the function of confidant, second year as the secretary to communicate with the new members.

### Aug. 2018 – Jul. 2020 **Race crew rower**

Eindhoven Student Rowing Association Thêta

–<https://esrtheta.nl>

Part of the selected race crew for season 2019 and 2020. This meant training with a crew of ten rowers six-eight times a week. Skills obtained were discipline, team work and perseverance.

## Certificates

### Aug. 2023 **Unfolding sustainability through innovative green digital solutions**

University of Rennes

Followed a two-week intensive summer school about IT for Green / Green IT.

### Aug. 2021 **Engineering Intelligent Light**
